

LOST GENERATION?

NO WAY!

Jobs for juniors ★ Pensions for seniors

ACTION ★ 19 september 2011 ★ 14:00
Belgium ★ Brussels ★ Place Schuman (European Commission)

EU youth unemployment is skyrocketing. Millions of young European workers are victim of a huge shortage of jobs (decent jobs!). In Spain and Greece half of the youth population is unemployed, European wide more than 20%. It is unacceptable that the EU wants to raise the pension age and force older workers to stick to their chairs while young unemployed are desperate for work. EU politics are failing on about every single level that concerns the future of our youth generation. We refuse to become a "lost generation", without any resistance. We won't let them destroy our future!

WE DEMAND :

Jobs for juniors, pensions for seniors

Keeping older workers at work against their will, while there are millions of young unemployed. Where do they get it??

Real, decent contracts for young workers

Stop exploitation and insecurity through all kind of temporary contracts. Young workers are no cheap toys, they too have the right to earn a decent, fix income.

Free education

Education is only democratic when it is 100% free. But what do we notice in the current dictatorship of the markets? Education in the EU is so expensive that students can only manage to finance by accepting low payed evening and weekend jobs, and signings loans that risk to become a burden for the rest of their lifes.

Take the future in your hands! ★ Support our demands and join us in our demonstration on 19 Sept 2011 ★ 13:30 ★ Brussels ★ Departure Cinquantenaire ★ Arrival Place Schuman (in front of the European Commission)★★★★★★★★★★★★★★★★★★★★
