

## **Brussels - thank you for your messages**

Dear colleagues, dear friends near and far,

everyone at UNI Europa would like to thank you for your concerned and moving messages in the terrible days Brussels has seen last week– we appreciate them deeply.

We were all lucky and remained unharmed but our thoughts were and still are with those who lost their lives or their loved ones and those who are still in the hospitals in critical condition.

We stand together faced with this and too many other terrorist attacks across Europe and the world. We must not allow ourselves to be divided but need to defend our values of human rights, democracy and a free society. We will not permit racism and xenophobia, fear and hate to take over. Individuals are to blame and need to be brought to justice. We are stronger than them.

Thank you very much

Oliver Roethig and the whole UNI Europa team
